THE FO'S

Music for people who never quite fit in.

thefosband.com/epk.html

THE BAND

It started with a childhood dream.

Two brothers and a friend grew up dreaming about two things: having a band and flying. Years later, different countries, different paths and different lives kept bringing them back to the same place: music. The FO's move between alternative rock, indie textures, cinematic moods and songs in Spanish, English and Portuguese. The sound changes because life changes. The stories are the thread.
